PROFESSIONAL SUMMARY

Sales Executive with 20+ years of experience spanning international trade operations, B2B/B2C sales, and commercial leadership. Over the last 5 years, built deep expertise in AI applied to sales — from prompt engineering to agentic AI workflows — becoming a reference at the intersection of technology and Go-To-Market strategy.

Currently at Ocalev, leading the GTM architecture for the WOCA product (B2C) and spearheading the company's corporate expansion roadmap for 2026, targeting BRL 500K in new B2B revenue. Proven track record of 50%+ revenue growth, 35% reduction in team turnover, and scaling operations with lean, AI-powered structures.

CORE COMPETENCIES

B2B/B2C Complex Sales | GTM Strategy & Revenue Growth | Agentic AI & Prompt Engineering

High-Performance Team Leadership | Sales Coaching & Development | Negotiation & Outbound Prospecting

PROFESSIONAL EXPERIENCE

OCALEV

Apr/2025 – Present

Business Development Manager | Sao Paulo, Brazil

- Built Ocalev's B2B Go-To-Market from scratch, designing the commercial strategy for two products with distinct buyer profiles: Woca Expert (SaaS for electrical engineering offices) and Woca Copilot (Done With You model for electrical contractors and installers without an in-house technical team).
- Structured two outbound funnels in Pipedrive: Outbound Signals (LinkedIn trigger-based) and Outbound RFB (7,759+ leads from Brazil's CNPJ/RFB database, filtered by CNAE, company size, and ownership structure), with multichannel sequences (email, LinkedIn, WhatsApp).
- Built AI-powered automation for weekly qualified prospect generation, trigger-based scoring, automatic CRM sync, and pipeline reporting — running a high-output operation with a lean structure.
- Owns pipeline management, forecasting, and continuous prospecting methodology improvement, with weekly reports and data-driven ICP refinement.

TRAMPOS

Jun/2022 – Jan/2025

Head of Sales | Sao Paulo, Brazil

- Led a high-performance sales team, building a coaching culture and continuous development program — reducing turnover by 35%.
- Designed and executed data-driven commercial strategies with BI dashboards and KPI monitoring, accelerating the sales cycle and growing revenue by 50%+.
- Expanded client base through upsell and cross-sell strategies, negotiating high-value contracts and strategic partnerships.
- Implemented Customer Success programs to drive product adoption and long-term client retention.
